

2010 FIRE SCHOOL CLASS DESCRIPTIONS

TWO-DAY TRAINING

ESSENTIALS OF FIREFIGHTING: THE BASICS

12 CEU (FF)

Sat/Sun

Class Limit: 24
Full Gear/SCBA+ spare bottle
Course #27940

The basic course taught in this course are important for new firefighters and a review for veterans. PPE, SCBA, hose and nozzle handling, ladder work and engine company operations

will be covered as well as hands-on practice of basic skills. Activities are physically demanding and strenuous. PPE required. *John Ballou, Lead Instructor, Audubon FD, Fritz Newbrough, Lone Rock FD, Iowa Lakes Advisory Board and Assistants*

THE RURAL CONNECTION:

WATER DONE "COUNTRY" STYLE

12 CEUs (FF)

Sat/Sun

Class Limit: 16

Full Gear

Course #27941

A must for every rural firefighter... Moving water in the rural setting is different than a city setting. This class will teach the basics of pump operations, how ICS works for small departments, understanding friction loss and drafting, and the safe use of tankers. At the end of class, we will look at working a water shuttle in an effective and safe manner. *Pat Daly & Jason Moritz, FSTB Field Staff, Iowa Lakes Advisory Board*

INCIDENT SAFETY OFFICER

12 CEUs (FF)

Sat/Sun

Class Limit: 24

No Gear

Course #27942

This National Fire Academy course examines the Safety Officer's role at emergency response situations. A specific focus on operations within an ICS as a Safety Officer is the main theme. The participant will be able to identify and analyze safety concerns as they relate to all-hazards scene evaluation, and communicate recommended solutions to the command authority. Persons attending this course should have a working knowledge of the Incident Command System as taught by the NFA, building construction principles, hazardous materials management, applicable NFPA guidelines, and Federal regulations. *FSTB Field Staff, Funded by National Fire Academy Training Grant*

HAZARDOUS MATERIALS: OPERATIONS

12 CEUs/8.0 CEHs-OE (FF/EMS)

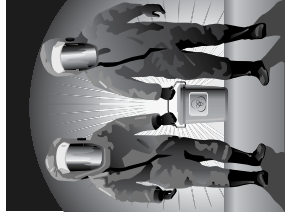

Sat/Sun

No Class Limit

No Gear

Course #27943

One of the most important sets in mitigation of a hazardous materials incident is the initial "size up" of the scene. If the size up is done correctly, the incident commander will have accurate, comprehensive information on which to base the objectives and goals of your response. This class is designed to instruct students, of all levels of response, on the components of hazardous materials size up. *Mason City FD, Funded Through Cerro Gordo County-Region 2*

ONE-DAY TRAINING

FORCIBLE ENTRY

0.6 CEUs (FF)

Sat

Full Gear & Safety glasses/goggles

Class Limit: 24

Course #27944

How does a firefighter gain entry into a secured building? Getting inside to stop a potential fire or to rescue a potential victim can be time consuming, hazardous, and difficult. The instructor conducting forcible entry training must teach the various methods employed to gain entry into a building through doors, windows, walls, and by forcing locks. This training must emphasize safety, speed, and the need to minimize property damage. The difference between success or failure during a fire suppression operation or rescue may depend on the ability of the firefighter to breach a barrier quickly, efficiently, and safely. This course will provide the students the opportunity to practice with realistic props for hands-on practice. *Professional Rescue Innovations, Funded provided by Iowa Central Community College, Fort Dodge*

COMBINE/AUGER EXTRICATION

0.6 CEUs/6.0 CEHs-OE (FF/EMS)

Sat

Full Gear

Class Limit: 25

Course #27945

This hands-on program will take an in-depth look at agricultural trauma including injuries involving a combine entrapment.

The hands-on portion of the program will deal with trauma patient care, auger entanglements, cribbing and extrication tools. Students will perform several evolutions in patient extrication. *Funded through grant-NECAS, National Education Center for Agricultural Safety Staff, Dan Neenan & Assistant*

INTERIOR STRUCTURAL FIRE ATTACK

0.6 CEUs (FF) see complete description

Sat or Sun

Full Gear /SCBA + spare bottle

Class Limit: 16 each day

Sat Course #27946 / Sun Course #27947

Participants had a

GREAT TIME in our

fire training center last

year! Students will

observe fire growth

and heat production;

attack and extinguish

the following: small

contents fire using di-

rect attack; room and

contents fire using

direct and indirect at-

tack; multi-room fire

and basement fire. They will practice safe use of PPE, ICS,

assignment of RIT; process through rehab and staging; hose

and fire stream management and coordinate attack with ventila-

tion. Students should have had practice in safety: fire behavior,

PPE; fire hose, appliances and streams. A documentation form

to be filled out prior to the class can be found on www.iowalakes.edu or can be e-mailed to you. It will need to be signed by your

chief and presented at class. **NOTE: Students participating in a**

live fire training evolution who have received required minimum

training from other than the authority having jurisdiction shall

not be permitted to participate in any live fire training evolution

without presenting prior written evidence of having successfully

completed the prescribed minimum training to the levels speci-

fied in NFPA 1403; 6.1.1. Prerequisites for this course are: Basic

knowledge and experience in the areas of: safety; fire behavior;

personal protective equipment (PPE); ventilation; and fire hose,

appliances, and fire streams. Dave Smith, Ruthven FD, FSTB

Field Staff, Adv.Bd member, other members of Iowa Lakes Advi-

sory Board and local volunteer FD members. Funding provided

by Volunteer Firefighting Training Funds.

NEW TECHNOLOGIES IN HYBRID VEHICLES,

EXTRICATION, AIR BAGS & PASSIVE RESTRAINTS

0.6 CEUs/6.0 CEHs-OE (FF/EMS)

Sun

Class Limit: 24

No Gear Required

Course #27948

Every first responder

should take this class

and know the dangers

involved with hybrid ve-

hicle extrication/rescue!

This session will cover

technologies in today's

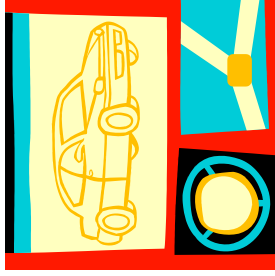

new hybrid vehicles. A

few topics covered in-

clude patient restraint systems, the associated injuries, hybrid

vehicle systems and the potential dangers to patients and emer-

gency personnel. *Professional Rescue Innovations*

HAZARDOUS MATERIALS: REFRESHER

0.6 CEUs/6.0 CEHs-OE (FF/EMS)

Sun

No Class Limit

No Gear

Course #27949

One of the most important sets in mitigation of a hazardous materials incident is the initial "size up" of the scene. If the size up is done correctly, the incident commander will have accurate, comprehensive information on which to base the objectives and goals of your response. This class is designed to instruct students, of all levels of response, on the components of hazardous materials size up. *Mason City FD, Funded through Cerro Gordo County-Region 2*

HALF-DAY TRAINING

HIGHWAY INCIDENT MANAGEMENT AWARENESS

0.3 CEUs/3.0 CEHs-OE (FF/EMS)

Sat am

No Class Limit

No Gear Required

Course #27950

This course will

prepare those who

respond to incidents

on highways to effec-

tively coordinate the management of these incidents in a man-

ner that preserves the safety of responders, citizens involved in

the incidents and the traveling public, and minimizes unplanned

delay and congestion on the streets, roads and highways. This

course is in accordance with DOT guidelines. *Denny Klatt,*

Spencer FD, Iowa Lakes Advisory Board

FIREFIGHTER REHABILITATION:

EVERYONE GOES HOME

3.0 CEHs-FF (EMS)

Sat am

No Gear, Class Limit: 24

Course #27951

Participants will un-

derstand the physical

and mental needs of

fire personnel opera-

tion at the emergen-

cy scene, evaluate

treat, recognize and

respond to the feel-

ings of fire personnel

that need rehab. Stu-

dents will also assess

the patient and demonstrate the ability to properly utilize appro-

priate interventions. Table top exercises and hands-on experi-

ence included in class. *Sheryl Dattling, PS, PACH-Ambulance,*

Iowa Lakes Advisory Board

TRAUMA ALERT: CHOPPER

REQUESTED GROUND SAFETY

3.0 CEHs-OE (FF/EMS)

Sat pm

No Class Limit

No Gear Required

Course #27952

Criteria will be

reviewed for he-

licopter utilization

when responding

to a traumatic

incident. Rec-

ognizing trauma;

trauma theory;

mechanism of in-

jury; the GOLDEN

HOUR and why MOI matters will be covered. Class will experi-

ence set up, landing, loading and take off of the air ambulance.

Russ Pihl, Critical Care Flight Paramedic, Mercy Care

ENHANCING GRANT WRITING SKILLS FOR THE

ASSISTANCE TO FIREFIGHTERS GRANT PROGRAM

0.3 CEUs (FF)

Sun am

Class Limit: 24

No Gear Required

Course #27953

This workshop is designed to assist fire departments in the grant writing process, with emphasis on the Assistance to Firefighters Grant program. This workshop will focus on understanding the electronic scoring process, and developing a good grant narrative. This workshop is meant for those fire departments that have never applied for the AFG, or have applied but have not been successful. *Randy Novak, Bureau Chief, Fire Service Training Bureau- Funded by DHS/NAFTD*

PUZZLE LOGIC: SOLVING COMMON

MEDICAL COMPLAINTS

3.0 CEHs-FF (EMS)

Sun am

No Class Limit

No Gear Required

Course #27955

Let's look at three common

medical complaints and use

our assessment skills! We'll

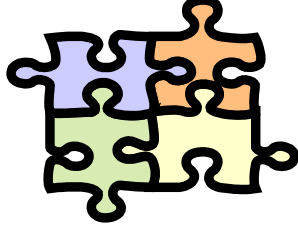

be able to piece together the

problem and come up with

situations to help make our

patients whole again. *Jeff*

Messersole, PS, Clinical Instructor, Spencer Municipal Hospital

SO NOW YOU'RE THE TRAINING OFFICER – WHAT'S NEXT???

0.3 CEUs (FF)

Sun pm

Class Limit: 24

No Gear Required

Course #27956

Regardless of whether you are a full-time fire service instructor, a company officer, or a training officer, you have now entered the "world of adult learning". This workshop will look at the role of the training officer/instructor, revisit the basics and add to our "instructor tool box". *Randy Novak, Bureau Chief, Fire Service Training Bureau, Funded by FSTB*

A TOUCH OF GREY

3.0 CEHs-FF (EMS)

Sun pm

No Class Limit

No Gear Required

Course #27957

Topics covered will be

"Growing Older One

Day at a Time"; the

aging process of the

body, changes and its effects; "Dismal/Bismol: Common Medical

Complaints"; the assessment and management strategies; and

"The Final Chapter-End of Life/DNR"; protocols and examples

of comfort care. *Jeff Messersole, PS, Clinical Instructor, Spencer*

Hospital.

THE FIRE SERVICE TRAINING

BUREAU REQUIRES A MINIMUM

NUMBER OF STUDENTS IN

CLASSES THEY SPONSOR

THIS FAR AHEAD OF TIME. WE

WILL BE FORCED TO CANCEL

CLASSES THAT DO NOT

MEET MINIMUM NUMBER OF

STUDENTS-SO REGISTER EARLY

AND SAVE MONEY! \$10 LATE

FEE (for one & two day classes)

and \$5 LATE FEE (half-day

classes) WILL BE CHARGED PER

CLASS IF NOT REGISTERED BY

THAT DATE. WE FEEL IT IS ONLY

FAIR TO OUR INSTRUCTORS,

MOTELS, MEAL PREPARERS

AND STAFF TO GIVE THEM THIS

MUCH NOTICE. A REFUND WILL

BE ISSUED IF IOWA LAKES

CANCELS A COURSE DUE TO

LOW ENROLLMENT OR ANY

OTHER CIRCUMSTANCES

BEYOND THE CONTROL OF THE

COLLEGE, INCLUDING WEATHER

(partial refund on 2 day classes

due to inclement weather), IF WE

ARE UNABLE TO TRANSFER

YOU TO AN ALTERNATE CLASS.

THANK YOU FOR YOUR HELP.

THANK YOU'S FOR FUNDING AND ASSISTANCE:

This assistance from the following enables us to keep our class tuition affordable.

Volunteer Firefighter Training Funds: Interior Structural Fire Attack (2 classes)

Iowa Central Community College, Fort Dodge in conjunction with PRI: Forcible Entry

NECAS: Combine/Auger Extrication

Arden Doocy: Combine head for extraction

Stateline Coop, Lone Rock: Auger

Petersen Farm Equip, Ruthven: Combine

Mercy Air Life, Mason City: Trauma Alert: Chopper Ground Safety

Cerro Gordo County-Region 2: Haz Mat Operations/Refresher

National Fire Academy Training Grant: Incident Safety Officer

Fire Service Training Bureau: So Now You're the Training Officer - What Next?

DHS/NAFTD Grant Funded: Enhancing Grant Writing Skills for Assistance to Firefighter's Grant Program

Okoboji GM Toyota: Hybrid Car for New Tech class

Polaris: Flyer printing costs

Thank you to our many instructors that volunteer their time, our dedicated Advisory Board members, Iowa Lakes' staff, Russ Grossman, Randy Novak, the Fire Service Training Bureau staff/field staff-Ames, PRI, other instructors, vendors and students for making this school possible.

Interior Structural Fire Attack will be held in our recently built fire training center. It proved to be a popular class at last year's school.
